EDUCATION

BSc in Information Technology(CGPA : 8.47)   June 2024

University of Mumbai, India

SKILLS

- **Programming Languages:** Java, SQL, JavaScript, Bash
- **Web Technologies:** RestAPI, Servlet/JSP, Spring MVC, Thymleaf, Html, CSS
- **Databases:** MySQL, PostgreSQL, MongoDB, Hibernate, JPA
- **Frameworks:** Spring Boot, Angular, GitHub, JDBC, Multithreading, System Design
- **Software Development:** Data Structures, Algorithms, Object-Oriented Programming, Design Patterns, Unit Testing, Waterfall Methodologies, Agile Methodologies
- **Tools/Operating Systems:** VScode, Eclipse, Git, Postman, JSON, Docker

PROJECTS

Coupons99.com –[Github]

- Engineered a dynamic web application for buying and selling coupons, employing frontend technologies like HTML, CSS, and JavaScript, and backend technologies including Spring Boot.

Attendance Management System –[Github]

- Designed and implemented a Java-based console application for managing student attendance, integrating PostgreSQL and JDBC for database management.

Recipe Tadka –[Github]

- Developed an interactive web application for discovering and uploading recipes, utilizing Angular for frontend development.

Attendance App –[Github]

- Created a robust web application for attendance management, leveraging HTML, CSS, JavaScript for frontend, and Spring Boot for backend services.

CERTIFICATES & ACHIEVEMENTS

- **Full Stack Development Certification** (Certified By **GNVS**)
- **Java Intermediate** (Certified By **Solo Learn**)
- **Introduction to Java** (Certified By **Solo Learn**)
- **Introduction to Python** (Certified By **Solo Learn**)
- **Technical Head of Zeal 2024**
